

[Download](#)

4. Copy the text into a text editor, fill in the missing data and send it by e-mail... download programs from the 20-sim website: www.20sim.com. 2. Write a program "Pi" (using the functions and procedures of the Pascal language) and print it out on a

printer. 3. Read the program and in edit mode, press the F2 key. The "Pascal Editor" window will open, which is a regular text editor, and in it you can make changes to the program or write a new one. Record a new program.

4. Write the Pi program in File mode and save it in your working folder as Pi. 5. Launch the Pi program.
